Communication is Key...

I will begin reporting my issue to the public by writing a letter to the editor of a widely read newspaper. I will write about the ineffectiveness of standardized curriculum and the effectiveness of a creative, teacher planned curriculum based on my education and my peers. I will send my letter to Philadelphia Metro or The Notebook. It will include my opinions but also some facts and statistics on the issue.

Other than writing to the editor of a newspaper I will try to get in contact with the Mayors office. I know a few people who can help me get in contact with them so hopefully I will be successful. If I am successful I will extend an invitation to the mayor to some visit SLA during Educon.
