Artist Statement

- For my most recent artwork, I would have to say that I'm most proud of my ceiling tile. I worked hard and efficiently on it and I can see the effort that I put into it to make it look like an acceptable piece of art. I would also have to say that I'm proud of my Minnie Mouse drawing. I love the shading and detail that I put into it to make specific areas stand out that I wanted the audience to see. I do admire drawings that hold detail and tell a story through it's abstract point of view. Working on portraying that abstract art is something that I hope to work on this the following quarters.
