

# Q4 Art Slideshow

Melissa Alvarez

# Project I

For my first project, I chose to dig a little more into my manga skills. I drew my favorite character from the show Dragon Ball Z.

# Project 2

This was the very first time I had ever successfully created an origami object. I had so much fun making it. Surprisingly it was really calming. This is an origami spinning top that I made using seven 6inch by 6inch pieces of paper.

# Project 3

This was the last and longest project I completed. I cut out a cardboard “M” into the shape that I liked. Then I printed out old photos in black and white and pasted them onto the cardboard. I created a photo collage on the “M”, and I’m proud of the way that it came out.
