

WASTING PHILLY

By Noah Marant

The trash awareness

The People in Philly tend to dump their trash uselessly outside bins and dumpsters whenever it's convenient or they have to carry their trash all the way home with nowhere to put it down. The places where one person dumpster trash might pile up with someone's else trash and that becomes an easy dump place for people to throw their garbage away this create an unhealthy environment and a bad-looking community.

What is Philly311

Philly 311 goal is to provide world-class service for all our channels-phone,email,mobile,web and social media. When you submit a service ticket we aim to deliver you timely updates and accurate information. By working closely with city departments, we develop valuable insights that help to improve our city.
