

Global Perspective:

Title: The opioid overdose crisis as a global health challenge

- Annotation: This article looks at the global opioid crisis, focusing on the problems and responses across different countries. It is important to understand the worldwide impact of opioids and the different ways to address the epidemic.
- [The opioid overdose crisis as a global health challenge - PubMed \(nih.gov\)](#)

Title: The opioid epidemic: A worldwide exploratory study using the WHO pharmacovigilance database

- Annotation: This study shows four different groups of countries with similar opioid problems. It gives a complete view of global trends in opioid abuse.
- [The opioid epidemic: A worldwide exploratory study using the WHO pharmacovigilance database - PubMed \(nih.gov\)](#)

Title: The Opioid Epidemic During the COVID-19 Pandemic

- Annotation: This article talks about the connection between the COVID-19 pandemic.
- [The Opioid Epidemic During the COVID-19 Pandemic | Substance Use and Addiction Medicine | JAMA | JAMA Network](#)

Title: How to Combat the Global Opioid Crisis

- Annotation: This article provides a deeper look into the growing number of opioid-related deaths in the United States and talks about the need for new therapies and screening methods to effectively deal with the problem.
- [How to Combat the Global Opioid Crisis - PMC \(nih.gov\)](#)

Title: Global Consumption of Prescription Opioid Analgesics

- Annotation: This study looks into the global intake of opioid analgesics and has a decade worth of valuable data on usage patterns.
- [Global consumption of prescription opioid analgesics between 2009-2019: a country-level observational study - PubMed \(nih.gov\)](#)

Title: Opioid Overdose Crisis: Time for a Radical Rethink

- Annotation: This article talks about the need for a radical rethink in dealing with the opioid overdose problem, focusing on the importance of new strategies and policy changes that will effectively deal with the issue.
- [Opioid overdose crisis: time for a radical rethink - The Lancet Public Health](#)

Title: The Opioid Crisis: A Contextual, Social-Ecological Framework

- Annotation: This article looks into the opioid epidemic through a social-ecological lens, shedding light on personal variables, personal relationships, and public setting impacts on opioid abuse. It points out how complex the crisis is.
- [The opioid crisis: a contextual, social-ecological framework | Health Research Policy and Systems | Full Text \(biomedcentral.com\)](#)

Title: Learning Health Systems and Evidence Ecosystems: A Perspective on the Future of Evidence-Based Medicine and Evidence-Based Guideline Development

- Annotation: This article talks about the future of evidence-based medicine, which is relevant to the opioid epidemic because it will help with finding medical solutions for the epidemic.
- [Learning health systems and evidence ecosystems: a perspective on the future of evidence-based medicine and evidence-based guideline development | Health Research Policy and Systems | Full Text \(biomedcentral.com\)](#)

Title: Producing Knowledge Together: A Participatory Approach to Synthesising Research Across a Large-Scale Collaboration in Aboriginal and Torres Strait Islander Health

- Annotation: The article highlights the importance of stakeholder involvement in evidence synthesis. This can be used to understand and deal with complex health issues like the opioid crisis.
- [Producing knowledge together: a participatory approach to synthesising research across a large-scale collaboration in Aboriginal and Torres Strait Islander health | Health Research Policy and Systems | Full Text \(biomedcentral.com\)](#)

Title: Assessing Unconventional Evidence (ACE) Tool: Development and Content of a Tool to Assess the Strengths and Limitations of 'Unconventional' Source Materials

- Annotation: This study talks about the development of a tool for reviewing new evidence, which could be important in addressing difficult problems like the opioid crisis by exploring a larger range of data sources.
- [Assessing unConventional Evidence \(ACE\) tool: development and content of a tool to assess the strengths and limitations of 'unconventional' source materials - PMC \(nih.gov\)](#)
