

Just Me

By Robert Jenkins

Editor Letter

In this Magazine you will find interesting facts about the three favorite things I like to do and the stories about it. First you will hear about my love sports in my two sub articles about football and basketball. (See pages 1-2)

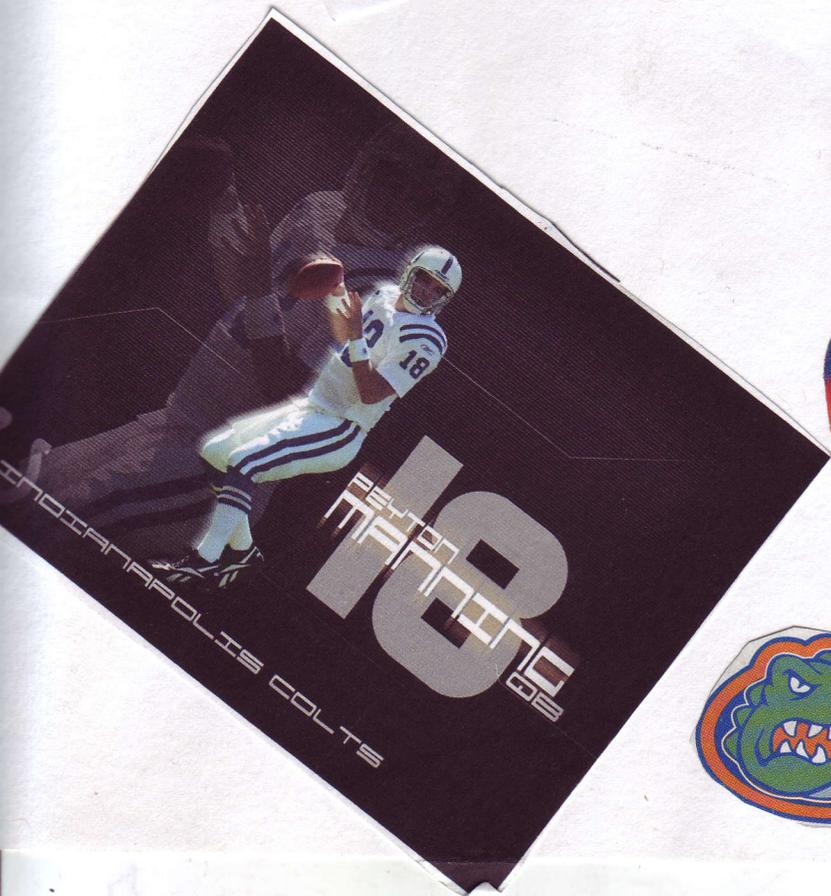

Then right into the amazing and fun outings I take to the mall. Thank You for reading my magazine about my life and I hope enjoy reading it as much as it was a pleasure to write it.

Sincerely
Robert Jenkins

Football

Its only one thing to do on the great gridiron. This is to play a great game of Football with your friends. This is my Second Favorite sport to play in my spare time. This is because it is very fun and great way to exercise. I also use it to help me with basketball. For example it helps me with catching and staimia. My favorite team is white and blue Innapollis Colts and my favorite player is Peyton Manning. I started watching the sport more than every Sunday and Monday night day with my dad. We would watch the games and have disagreement about players, teams, trades, or anything going on in the league. But the usually is which team is better colts or eagles cause my dad's a eagles fan.

Basketball

On mostly everyday you can find me dribbling, shooting, or fast breaking my way down the court. I love to watch and play basketball. When I'm playing it makes it easy to clear my mind. The only thing I notice when I'm on the court is me and the ball. That way I have complete focus on a goal, which is to help my team in any way so that we can win. No matter if the team needs me get rebound or throw out assist I always look for what's best for the team. But my love for the game all started by watching NBA games. Watching the excitement of my favorite player lebron James leading his team though an exhausting season looking and saying that could be me someday. So now I try hard each and every day to get better to someday I could be a starter in the NBA.

Shopping

Malls are wonderful places to be they have stores to fit any style or swagger you have. My personal favorite is Hollister and its California look. When I go to the mall I get at least one thing from there. But when it comes to sneakers all I really wear is Nike and Addias and sometimes polo. But shopping is more than just buying clothes to me. It is a time to escape from the house and hang with friends. So its two things great about malls the great clothes and great outing you can make out of it.
